

# LAZER

HIGH PERFORMANCE LIGHTING

## ST-4

Our most versatile product, the ST-4 has established itself as a leader in the field of auxiliary driving lights. Our *Dual-Optic* reflector system consists of a central collimator which delivers a fantastic spread of light close to the vehicle and in the mid-range, while the vacuum metallized reflector achieves excellent distance. This resulting beam pattern gives the driver maximum useable light for everyday use. High output 11 Watt LEDs, combine with advanced thermal management systems for optimising light output under all conditions.

### LAZER ST-4

# HYBRID OPTIC LED DRIVING LAMPS

## ST-4

### TECHNICAL SPECIFICATIONS

E-MARK REF	7.5
VOLTAGE RANGE	9V-32V
RAW LUMENS	3472
BEAM PATTERN	Hybrid
OPTICAL EFFICIENCY	88%
BEAM DISTANCE (0.25LX)	485m
# HIGH POWER LEDS	4
POWER CONSUMPTION	43 Watts
CURRENT DRAW**	3 Amps
LED LIFE	50,000 Hrs*
WEIGHT	800 Grams

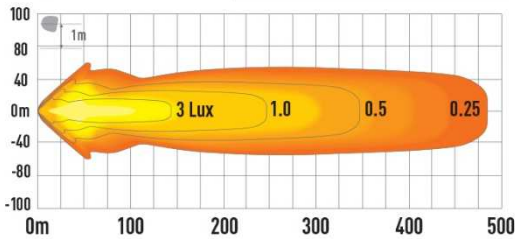

- Dual optic reflector system delivers class leading distance and mid-range spread of light
- Hugely versatile lamp for on and off-road use
- Highest output LED 'bins' selected for optimal performance
- CAE optimised heatsink and electronic thermal management
- 'Unbreakable' polycarbonate lens

\* LED Manufacturers Specifications \*\* At 14.4 Volts
